

## Construction Update

Activity update for April 10, 2017

**Dear Friend,**

Below is a list of activities that we expect to occur in the next two weeks.

### **Potential Activity: April 10 - April 22**

- Utility installation in South Union Street continues. The work will require periodic road closures to all traffic during work hours including residents on the 300 block of South Union and delivery trucks required to utilize the haul route. The road will be open for traffic during non-working hours.
- Excavation and backfill efforts associated with Archeology.
- Vibration monitoring continues to confirm construction activities are not generating excessive vibration. Documentation of monitoring activities will be posted on the Robinson Landing website monthly.

Please visit the [Robinson Landing](#) website for more information about the project.

In addition to construction updates, if you would like to receive information on the new homes and preview events, please [sign up for new home updates](#).

## NEW HOME UPDATES

Sincerely,

The Robinson Landing Construction Team
